BULLETIN

Vol. 20 No. 02

Are you ready?

We are

With 2020 well underway, everything is in place to drive our mission to new heights.

Supporting and maximizing the achievement of your objectives remains a priority for us. We are committed to do so by quickly providing you with quality truck bodies tailored to your needs.

You are the source of our success and the following tools are at your disposal. Use them without hesitation!

Brilliant team

Over 350 competent, enthusiastic and specialized individuals work daily for you. Whether they are part of the supply chain, production, welding, painting, supervision, maintenance, shipping & receiving, delivery, engineering, management, or sales teams... They all form the same team: yours!

Your representative is more than just a salesperson; he is an advisor, a partner. He is the representative of your success. Contact him. Meet him. Refer him. He is always there for you. Take good advantage of him.

Tailor-made products

You know your business and its needs. Transit knows bodies, trucks and the transport industry. Together, we will make sure to find the best solution, the most advantageous avenue for you, the path to tailor-made success. Supported by our team, you have the best available to you, dry or refrigerated.

Substantial inventory

We are the only ones to manufacture in advance, without order, and thus have a large inventory of *stock* truck bodies available, allowing us a response time unparalleled in the industry.

We also have *pool* agreements with three major chassis manufacturers, and thus have the largest inventories of GM & Ford trucks in Canada, not to mention several Dodge models in reserve, ready to deliver.

Fast production and delivery time

Far from wanting to box you in, we want to see you happy and offer you the most favorable solution.

We have the flexibility to meet your deadlines. We will plan together the arrival of your chassis to our facilities so that your truck bodies are installed seamlessly.

Profitable Investment

Durable and resistant, in addition to ensuring the shortest repair time on the market, our truck bodies are designed to maximize your usage and your income. We are aware that the place where your truck body gives you the greatest return is on the road!

We are TRANSIT

YOU are Transit.

Discover a different kind of truck body!
