

# TRANSIT

## BULLETIN

Vol. 19 No. 02

### The winning roster

#### You deserve the best

That's why TRANSIT brings you a unique line-up of truck bodies, tailored to your needs.

**Transit Arctic™**  
REFRIGERATED

The perfect match between sprayed polyurethane insulation and sprayed fiberglass

- ✓ Easy to repair from the outside of the box without damaging the interior
- ✓ Seamless interior is hygienic, totally water-proof, slip-resistant and washable

**Transit Frio™**  
REFRIGERATED - High performance

The future is now; it's an eco-friendly and economical choice

- ✓ High-density polystyrene and polyurethane sandwich panels
- ✓ Large cargo capacity
- ✓ Exceptionally consistent insulation with no thermal bridges

**Transit Classik™**  
DRY FREIGHT

The obvious choice for moving standard cargo

- ✓ Bonded, rivet-free aluminum panels
- ✓ Aesthetically pleasing and durable

**Transit X-Treme™**  
DRY FREIGHT - High performance

A sturdy and powerful truck body made to last

- ✓ High density, ultra-resistant, compressed panels
- ✓ Increased interior width at 101 inches

#### You know what you want

Whether transporting dry or refrigerated merchandise, just like your business, TRANSIT truck bodies stand out:

##### FLEXIBLE DESIGN

Everything is made on site. Our internal engineering team can develop customized truck bodies that meet our client's specific requirements.

##### INCOMPARABLE AESTHETICS

Your truck looks great. Rivet-free panels provide a smooth surface for decals and graphics. Stainless steel corners, LED lights and more - all enhance the look of your truck body.

##### EFFICIENT PRODUCTION AND FAST DELIVERY

With an efficient manufacturing process and a complete inventory, deliveries are made without delay. Our turnaround time is amazingly fast, unmatched in the industry. Your truck body will be ready to hit the road quickly.

##### REDUCED OPERATING COSTS

You spend less. Transit offers the most cost-effective truck body in North America. With its unique features, your box is more durable, repairs are less frequent and downtime is kept to a minimum.

##### INNOVATION AND STRENGTH

Your repairs are done faster. All the materials used are corrosion resistant and the panels can be easily replaced from the outside - thanks to the bonded panels technology.

#### You get more bang for your buck

As if innovative, lightweight premium products seemed to be the best thing you could get...

TRANSIT offers you even more, with an expertise of over 40 years and a clear and simple 5-year warranty; the most complete on the market!

More and more people run with TRANSIT truck bodies.

#### Discover a different kind of truck body!
