Tired of searching?

You are finally there

Whether it's getting the truck body that suits your needs, or getting the job that meets your expectations, Transit is the place to be.

You are not alone

In fact, your project will now be one of a team of more than 300 competent, enthusiastic and specialized individuals, dedicated to making your goal a success!

At the crossroads

True industry leader, we have manufactured over 60,000 truck bodies since 1978.

Our plant, located in Laval close to all major highways, is easily accessible by car or public transportations, and allows us to deliver quickly across Quebec, the rest of Canada and the United States.

In short, your new fleet of trucks or your dream job is within reach.
